AND RETIREMENT HOMES

odor elimination systems
aromask.com

Aromask is a secret, scientifically designed blend of natural organics, essential oils, natural aldehydes, esters and ketones with vapor reducing properties. The vapor pressure reducing reaction attacks malodorous compounds that typically contain sulphur and nitrogen, altering their aromatic character. This allows the Aromask fragrance compound to deliver a pleasant scent. Aromask contains proprietary aroma chemicals with specific odor suppressing properties.

Biodegradable and Environmentally Friendly

Over the years, our R & D department has formulated and designed several Aromask sizes and packs to address the many uses for the consumer, institution, industrial and the health care industry. Aromask eliminates obnoxious organic odors, replacing them with with a fresh scent.

Aromask products are widely used in medical facilities / extended care and retirement homes worldwide to control unwanted odors. ***Aromask is 100% biodegradable and environmentally friendly.***

General Use: Aromask Gel-Paks™ are a cost effective and ideal way to keep bathrooms, patient rooms, kitchens, storage rooms, garbage collection areas and offices odor free 24/7, while replacing obnoxious odors with a fresh scent. Gel-Paks™ are also used extensively in pathology departments to control odors. One or two sprays of Aromask RTU™ (ready to use) will give immediate relief from unwanted odors.

Laundry: Add 2 to 3 capfuls to regular size wash loads where soiled bedding and clothing is a problem. Use Aromask sprayers for immediate relief to eliminate offensive odors from soiled linen and mattresses. Spray laundry hampers / diaper pails with Aromask to control odors.

Kitchen Area: Use Gel-Paks™ under dishwashing equipment, storage rooms, garbage collection areas and any other areas where offensive organic odor is a problem.

General Cleaning: Add 2 to 3 capfuls of Aromask to your rinse water when mopping/wiping down floors and furniture for an odor free environment. For immediate relief from obnoxious odors spray Aromask directly onto the soiled area.
